

## E-ZEE CMX

Article Description	Embroidery Backing	
Composition	35g	approx. 80% Cellulose, 20% PES
	40g	approx. 60% PES, 40% Cellulose
	50g	approx. 80% Cellulose, 20% PES
	75g	approx. 70% Cellulose, 30% Viscose
	80g	approx. 60% PES, 40% Cellulose
Weight in g per m <sup>2</sup> (± 5%)	35g, 40g, 50g, 75g, 80g	
Make Up Available	35g, 50g	= 90cm x 200m
	40g, 75g, 80g	= 90cm x 100m
Color	white and black	
How to remove	tear away:	35g, 50g
	cut away:	40g, 75g, 80g
Main areas of application	Embroidery stabilizer	

### Features

- CMX is a high-quality and all-round embroidery backing material.
- The weights of 35g and 50g are very easy to tear away in both directions.
- The 75g is rather used as a cut away backing.
- CMX can be framed "tight as a drum".
- Due to the Cellulose percentage, CMX is a very soft backing. At the same time, its stability avoids perforation of the backing during the embroidery process.

### Recommendations for care

For special washing and ironing treatments such like stone-wash, tunnelfinisher, etc., tests should be done before starting production.

### Oeko-Tex
