

E-ZEE WEB

Article Description	Embroidery Backing
Composition	100% Polypropylene
Harmonised Tarif Number	560312900
Weight in g per m ² (± 5%)	50g
Make Up Available	Pre-Cuts 23 x 23cm x 250 Pieces 38 x 38cm x 250 Pieces Roll 90cm x 200m
Color	white and black
How to remove	cut away
Main areas of application	Embroidery stabilizer

Features

- WEB is a soft and light-weight cut-away embroidery backing and thus can't be seen through the fabric.
- WEB is especially suited to stabilize light-weight to middle-weight fabrics as well as knit or stretch fabrics. It makes embroidery designs cleaner, for example on Jersey and Polo-Piqué.
- The high tensile strength of WEB provides extra stability for fabrics during embroidery and after embroidery, even after many times of normal and industrial washing.
- The woven structure of WEB prevents sliding of backing from the fabric.

Recommendations for care

Iron fabric at medium temperature **using a cloth behind the stabilizer**. Washable up to 95 °C with a possible shrinkage of 2-3%.

For special washing and ironing treatments such like stone-wash, chemical cleaning, etc., tests should be done before starting production.
